

NETGEAR®

WHAT YOU CAN'T SEE JUST GOT EASIER TO MANAGE

IMPROVE YOUR WIRELESS WORLD WITH THE NEW PROSAFE WC7600 CONTROLLER

Knowing what is connected to your wireless network should not be complicated to see or manage. With an ever increasing number of devices capable of connecting wirelessly, delivering a professionally controlled and seamless wireless experience for all your authorised users is essential.

Ideal for dense and demanding wireless environments, the new ProSAFE WC7600 Wireless Controller is a scalable, high performance WLAN solution that puts you firmly in control of today and tomorrow's wireless networking needs. Flexible enough to support a few dozen laptops to several thousand tablets, it delivers enterprise grade functionality for small to mid-sized organisations, but without the cost and complexity of big IT.

Built for evolving future application and device needs, it's also 802.11ac wireless-ready. Additionally, with no recurring annual licence fees: simply pay as you grow.

Now that's something to dance about.
